

Xerox™ TriShield 360 Cyber Defense and Insurance Solution

XEROX IT SOLUTIONS

Detect. Defend. Insure. A turnkey XDR and 24/7 Security Operations Center solution delivering cyber-insurance readiness for SMBs and mid-market organizations without the enterprise price tag.

AN AI-ENABLED CYBERSECURITY SOLUTION POWERED BY PALO ALTO NETWORKS AND LUMIFI SOC

Xerox™ TriShield 360 Cyber Solution delivers a comprehensive XDR and Security Operations Center (SOC), while providing fast-track approval for cyber insurance.

TriShield 360 delivers enterprise-class capabilities at price points for SMBs and midmarket organizations:

- **Unlock 24/7 Monitoring and Response:** Small IT teams don't have the expertise required, nor can they staff around-the-clock SOC analysts. Lumifi's 24/7 Security Operations Center ensures threats are detected and mitigated.
- **Unify Disparate Cyber Solutions:** Disconnected tools create blind spots. Palo Alto Networks Cortex XDR unifies telemetry across endpoints, network, cloud, and identity.
- **Streamline Vendors and Carriers:** We have utilized our cyber expertise and global scale to build a solution that eliminates the need for our clients to architect, design, negotiate and deploy a cyber detection and response solution across multiple vendors.
- **Quantify Your Security Posture and Meet Control Requirements:** Generate logs, reports, and incident timelines. Quantify your security posture and enhance your current control set such as MFA, vulnerability management, patching, and continuous monitoring.

DETECT, DEFEND, INSURE—THE POWER OF THREE

TriShield 360 goes beyond traditional managed security. It brings together advanced threat detection, 24/7 defense, and insurance-aligned risk management in one turnkey solution, powered by industry leaders working together to keep you protected and prepared.

Detect with Palo Alto Networks

Palo Alto's AI-enabled XDR platform delivers unified visibility across endpoints, networks, and cloud environments, identifying and correlating threats before they can escalate.

Defend with Lumifi

Lumifi's 24x7 Security Operations team hunts, contains, and mitigates threats in real time, reducing disruption and protecting business continuity.

Document and Insure with Aon and The Hartford

Aon and The Hartford strengthen your financial risk and security posture through validated controls, compliance alignment, and insurability, helping you reduce exposure and secure better cyber insurance coverage terms.

From prevention to protection, you're fully covered.

Together, these components form a solution that protects your organization against the growing cyber threat landscape while letting you measure, document, and deliver value even from constrained or limited security budgets.

Value You Can Count On

Enterprise-class protection and compliance without enterprise-class costs.

Monthly SOC Reports

Continuous, compliant monitoring

Runbooks and Playbooks

Less noise, faster response

Compliance Documentation

Proof for auditors and underwriters

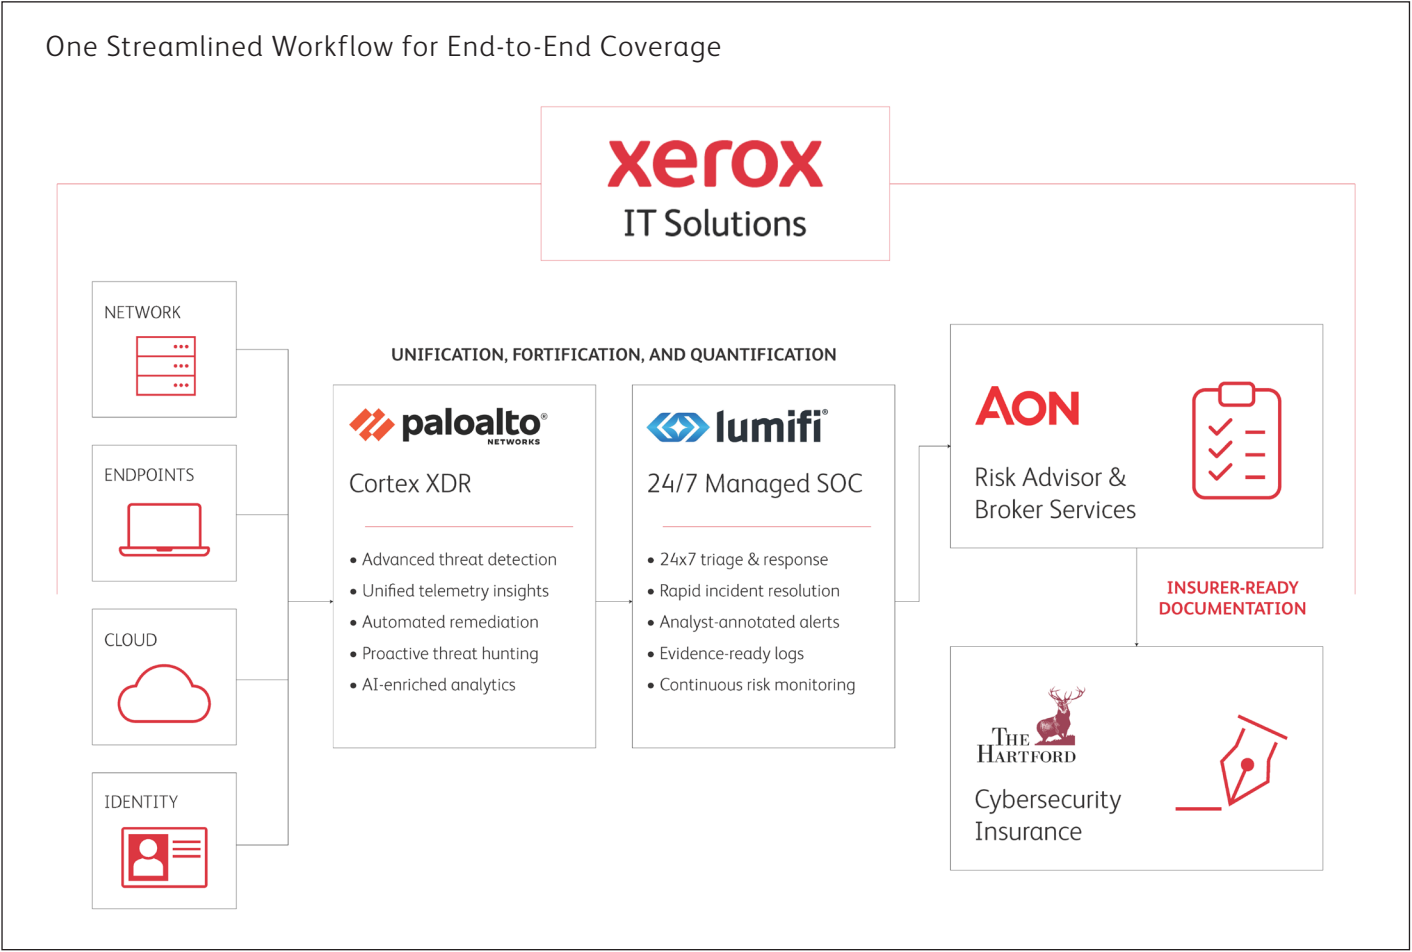

Incident Logs and Timelines

Faster detection and remediation

xerox™

Your Security Roadmap: Detect, Defend, Insure

A unified workflow for protection, response, compliance, and insurance delivering enterprise-grade cybersecurity at SMB and midmarket price points.

WHO BENEFITS	WHAT THEY GAIN
Your Customers	Peace of mind knowing that your environment, and their data, is protected
Your Executive Executives	Confidence in cyber threat management with insurance/risk readiness
Your Security Leadership	Reduced risk, consolidated telemetry, measurable detection, and response improvements
Your Finance Leaders	Lower premiums, documented ROI, compliance-ready reporting
Your Compliance Teams	Standardized evidence packages for auditors and insurers
Your Technology Directors	Co-managed operations, ready-to-use playbooks, staff support
Your IT Teams	Safer systems access, fewer disruptions, clear guidance during incidents
Your End Users	Streamlined workflows, reduced alert fatigue, faster incident response

Xerox IT Solutions: Proven expertise delivered with a frictionless client experience.
