

IT Infrastructure Built for What's Next

XEROX IT SOLUTIONS

Build future-ready infrastructure that scales to meet the evolving demands of hybrid cloud, AI, & big data workloads.

BREAK FREE FROM IT LIMITATIONS

Outdated infrastructure stifles innovation, raises costs, and lags behind AI and data demands. Legacy systems create silos, security gaps, and inefficiencies.

Modern solutions eliminate these roadblocks with scalable computing, high-performance storage, and intelligent processing—keeping your IT in sync with your business.

FRICTION-FREE SOLUTIONS FOR THE BACKBONE OF YOUR BUSINESS

Managing IT infrastructure is complex. Our end-to-end solutions—from design to ongoing support—let your team focus on growth instead of daily IT tasks.

With our modern infrastructure solutions, your IT just works—whenever and wherever you need it. Trust Xerox IT Solutions to handle the complexity while you drive innovation and business success.

We ensure that your IT environment just works, whenever and wherever you need it most.

UNDERSTANDING THE BENEFITS OF MODERN INFRASTRUCTURE

With solutions like SD-WAN and Hyperconverged Infrastructure, modern IT infrastructure transforms how you operate—offering enhanced performance, simplified management, and smarter resource allocation.

Key Advantages of a Modernized IT Stack

- Flexibility: Scale easily with SD-WAN & Hyperconverged Infrastructure.
- Cost Savings: Consolidate storage, computing & networking.
- Simplified Management: Streamline IT with integrated solutions.
- Security: Protect data with adaptive, built-in features.
- Speed: Reduce latency & accelerate service delivery.

Adopting SD-WAN and modern infrastructure solutions can boost agility and innovation — without the rigidity of traditional vendor lock-ins. It's about building a flexible foundation to stay ahead in a constantly evolving landscape.

SMARTER INFRASTRUCTURE WITH AIOPS

Traditional IT can't keep up. AIOps and automation prevent issues before they happen, reducing downtime and freeing your team for strategic work.

Proactive IT with AI-Powered Automation

- AIOps Insights: Detect and fix issues before they disrupt operations.
- Smart Automation: Streamline updates, backups & scaling.
- Self-Optimizing IT: Ensure seamless performance & high availability.

With AIOps and automation, your IT infrastructure works smarter—adapting in real-time and providing the reliability your business needs.

xerox™

AIOPS FEATURES	BENEFIT
Predictive Analytics	Identifies & prevents potential failures before they impact operations
Self-Healing Networks	Detects & resolves issues automatically, minimizing downtime
Intelligent Resource Allocation	Dynamically optimizes workloads for peak performance & cost efficiency
Root Cause Analysis	Quickly pinpoints issues, reducing troubleshooting time
Automated Compliance Monitoring	Ensures infrastructure meets regulatory & security standards without manual checks
Dynamic Load Balancing	Optimizes workloads across servers to prevent bottlenecks
Incident Prioritization	Uses intelligent analysis to focus on the most critical issues first
Real-Time Threat Detection	Identifies & responds to cyber threats before they cause damage
Performance Benchmarking	Continuously measures & optimizes system performance against KPIs

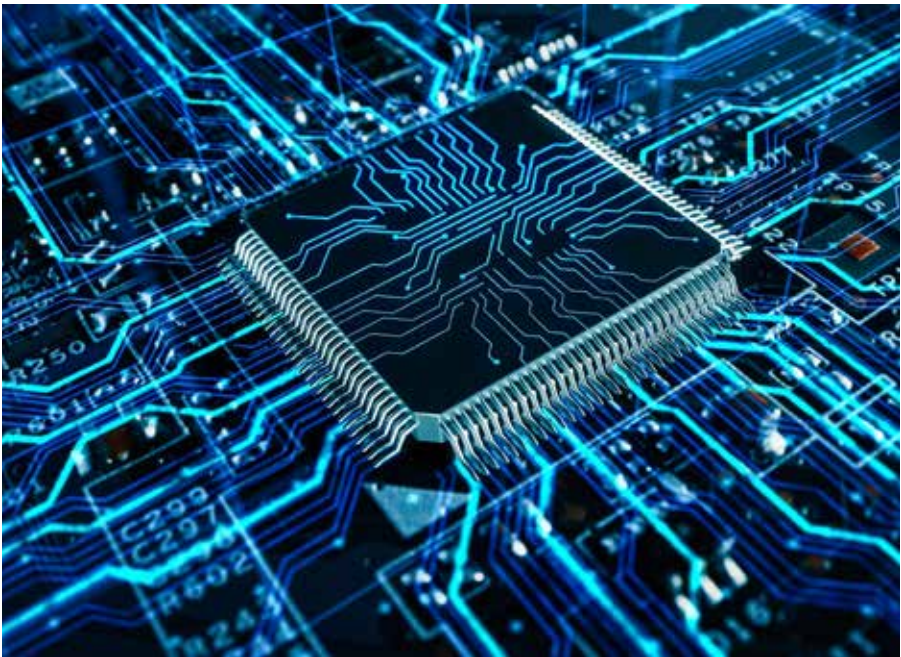

**FUTURE-READY IT, BUILT FOR
WHAT'S NEXT**

Modern infrastructure isn't just about keeping up—it's about staying ahead.

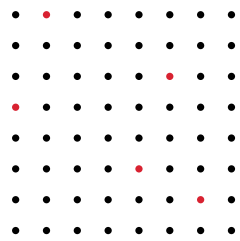

With scalable cloud solutions and intelligent automation, Xerox IT Solutions delivers modern infrastructure solutions that adapt to your evolving needs.

Whether you're optimizing for performance or resiliency, our expertise in SD-WAN, Hyperconverged Infrastructure, & AIOps-driven operations ensure your IT is always a step ahead.
